COURT OF GENERAL SESSIONS.

Pentence of John Ward for the Killing of Policeman Walker-Interesting Re-marks of Recorder Hoffman-Warning o Midnight Maranders-Ward Sent to the State Prison for Life-The Case of Burnham, the Alleged Mock Auctioneer, Sent to the Oyer and Terminer-Burglars and Thieves Sent to the State

ENTENCE OF WARD FOR KILLING OFFICER WALKER. At the opening of the court yesterday John Ward, who

fr. Charles S. Spencer, the counsel for the prisoner, sed that he had on that morning received important fermation, which he would put into the shape of affithat he was present at the time of the occurrence; Donohue, Wilson, Conner, a man named Clang the officers came to the door Conner rushed that the instant before Conner rushed out the door was violently slammed open suddenly against the other policeman; that this fellow Clang Reilley in quick succession followed Conner, and that Ward was the third manishant hearing the report of the shot at the instant, on the first rush he (Reilley) escaped through the back way, and has kept quiet about the matter until now. He felt it his duty to call and let him (Mr. S.) know the facts, and that this man, Clang Reilley, from that moment till the present has disappeared. If these facts were put in the shape of afflavits, and if the court had the power (as the City Judge had decided it possesses), it would be a good ground to base a motion for a new trial. He was not without hope that Mrs. McEwen might be induced to make a statement of the facts, which she undoubtedly knows, and that the police, if put upon the trail of this man Reilley, may succeed in arresting him, and that the real murderer of officer Walker may eventually be brought to justice. He (the counsel) was also informed that with the exception of a few weeks the prisoner had worked at the wire drawing business steadily for some three years.

brought to justice. He (the counsel) was also informed that with the exception of a few weeks the prisoner had worked at the wire drawing business steadily for some three years.

THE RECORDER'S ADDRESS 10 THE PRISONER.

THE RECORDER'S ADDRESS 10 THE PRISONER.

THE RECORDER'S ADDRESS 10 THE PRISONER.

The Recorder sa d—I shall dispose of the case as if the affidavit were made now before me. I consider it as made, and you may file it whenever you choose. The statements which the counsel for the prisoner make, as based upon information derived from this missing witness, are entirely at variance with all the testimony on the trial. They are made by a man who, according to his own admission, has withheld what he says is the truth until a period so late that it could be of no use to anybody. If he was entitled to any credit at all at any time he has forfeited his right to be believed by the fact of withholding the information so long. All the witnesses agree that only two men went into that place on that occasion; and if there be any truth in the statement of this man, to whom you refer, you will have to antisty the Governor upon that point. It is too late now for it to have any effect here. The Recorder them addressed John Ward as follows:—Ward, you were indicted for the murder of Thomas Walker, one of the polemen of this city, a man who stood well in the department, and who was universally respected by all who know him. The District Attorney, in summing up your case, alluded to the fact that only seven or eight hundred of these policemen patrolled this city during the hours of the night, guarding and protecting the lives and the property of nearly a million of people against assaults and crimes committed by a class of men whom he very properly styled midnight maranders. These seven or eight hundred policemen who geard this city at night are exposed to all sorts fedanger, and frequently we hear of their being killed in the discharge of their duty. Men who are exposed as hely are entitled to all the protection which

The Grand Jury came into court with a large number of indictments, when the forema announced that they had finished their business.

Atkany Live Stock Market.—Yesterday was a bad dry for the cattle dealers. The cattle, for the most part, are of fair quality, and the supply is somewhat smaller than it was last week, but prices are no better, if so good. One or two sales made during the afternoon indicate a sa decline, but the transactions were not sufficiently lage to determine what tone the market will assume today. Good cattle can be bought at 8c. per lb., and prime fat Illinois steers, averaging about 1,400, at 9c. Sheep are in steady demand at 64c. a 8c., and hogs at 105c. a 11c. per lb.—Argus, Dec. 22.

LENDON. NOV L. 1985.

With reference to Notice to Mariners No 28, issued from this office on the 21st of March, 1865, relative to the danger caused by the destruction of her Majesty's line ship inombay, between Flores Islet and the English Bank, it appears, from information lately received from Mr Charles C Scott, master of H M S Satellite, that the wreck lies about 135 mile southeast give the position formerly given, with Flores Lighthouse bearing N 9 40 E, and the Cerro Lighthouse N 60 20 W.

The following further information has an appropriate perfectly from Commonder Phillips, or H M S Stromboli, through the Commander in-Chief on the southeast coast of America.—
On sither side of the

through the Commander in-Chief on the southwast coast of America.

On either side of the wreck there are 7 and 7% fathom water, soft mud; and from the report of the diver no shouts forming around, and only a slight coating of mud over 10 buring a very low river, caim and smooth water, the troub boil steamed slowly over all parts of the wreck, and the less water was 5½ fathoms. Under these circumstances it apears that the wreck of the Bombay does not obstruct its navigation at the Rio de la Plata.

The bowsprit, however, is about to be removed and replaced by a busy; but it is probable tiflat it will soon by washed away.
